Alexey Eremenko

Front-end developer

Kharkiv, Ukraine   +380 (97) 337-14-28   github.com/aleksej579

aleksej.eremenko579@gmail.com   linkedin.com/in/aleksje579

SKILLS & KNOWLEDGE

- Client-side development for a web application.
- I create responsive web design with semantic markup.
- Using BEM-naming. Familiar with Twig, Liquid.
- Can work with Sass preprocessor and Smacss architecture.
- Used css libraries like: TailwindCSS, ElementUI+, UiKit and some other.
- Programming in Javascript (ES6+), can work with jQuery and have basic PHP skills.
- In SPA development I prefer to use Vue.js.
- Using build tools Vite.js and Gulp.js. Some experience with Webpack.js.
- I use Git and have worked with Jira.
- CMS development on Drupal, Shopify and cloud services Firebase.
- Creating a prototype in Figma. Working with raster and vector graphics and 3D modeling.

WORKING EXPERIENCE

Front-end developer (**Freelance**) 6+ months

- Freelance and pet projects. Prototyping.
- Markup, Vue, Vite, Tailwind, REST, CRUD, Express, Firebase, Smacss, Figma.

Front-end developer (**Intertool**) 4 months

- Improving existing sites. Redesigning existing CSS, replacing graphics icons with SVG. Layout of new pages. Adapting for mobile devices. Development of new functionality such as a quick order basket. Simple work with PHP in Html of e.g. display a list of products. Working with Figma. Teamwork in Git.
